Buddy

The Fun Side of Mealtime

At Buddy, the health and happiness of our children come first. We believe that a child's eating habits play a crucial role in their growth and learning process. Buddy Feeding Plate is designed with beautiful colors, to improve children's talents and fine motor skills, and also to make their mealtime more enjoyable.

With Buddy, your child's mealtime will become more fun as each food item is served in separate compartments, helping your child develop a habit of sharing. The use of healthy and safe materials ensures that your baby can eat with confidence. Also, presenting different types of food together prevents mixing, making it easier for you and your baby to enjoy the experience.

The Buddy Feeding Plate Set is easy to clean and suitable for sterilization. You can easily clean it by hand or by the dishwasher. Thanks to its features, Buddy is not just a feeding plate but also a helpful friend that contributes to your baby's healthy nutrition.

Choose Buddy and turn mealtime into a fun and educational experience for your child.
